Download REP Data File

This selection provides a downloadable Extensible Markup Language (XML) file of the data submitted to the REP for the submission cycles beginning with the Fall 2003 REP Submission.

XML is a structured computer language used to store data in a text-formatted file. A district user may open this file in any text editor program (e.g., Notepad or Microsoft Word) or Web browser (e.g., Microsoft Internet Explorer or Firefox). Users may also import the file to a Microsoft Access database or open it in a Microsoft Excel spreadsheet.

The primary purpose of obtaining this file is to allow users to retain a permanent record of the data successfully submitted to CEPI at any given time.

Steps to "Download REP Data File"

To download a personnel data file, follow these steps:

Step One: Select "Download REP Data File" under the heading Reports on the REP Main Menu.

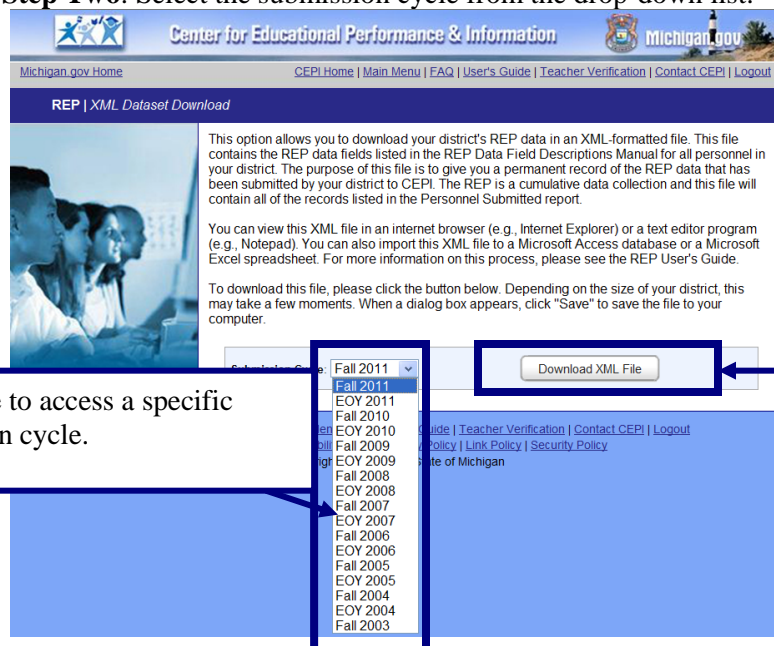

Reports

To view a report or download personnel data, select from the following options:

- [Summary by District](#)
- [Complete Summary by District](#)
- [Download REP Data File](#)
- [Employee Listing by District](#)
- [REP Submission Reports](#)

Click here.

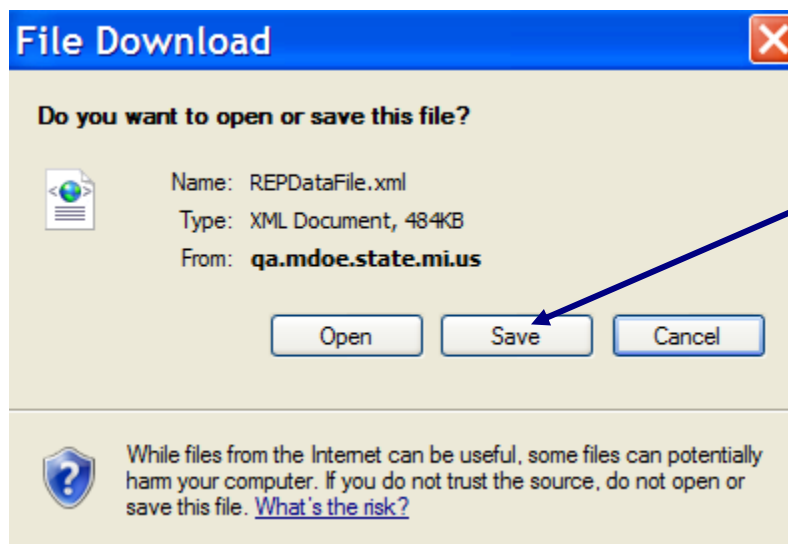

Step Two: Select the submission cycle from the drop-down list.

Click here to access a specific submission cycle.

Click here to download the XML file.

Step Three: Click on "Download XML File" and save the file to your computer. The following pop-up window will appear:

Using Microsoft Access to View the XML Data File

The XML file may be imported into a Microsoft Access XP database. Please note that this will only work with Microsoft Access version XP or higher. To import the REP XML data file to an Access XP database, simply follow these steps:

1. Start Microsoft Access XP and create a new blank database.
2. Name the database whatever you wish.
3. Under the File menu, select "Get External Data" and then select "Import..."

4. In the Import dialog box that appears, find the drop-down list at the bottom labeled "Files of type." Scroll down through that list and select the "XML Documents" option.
5. Locate the saved REP XML file on your computer, select that file and click the "Import" button.
6. The Import XML dialog box will appear. It should contain four tables: ProfessionalDevelopment, RacialEthnic, EmploymentData and SchoolAssignment. Click "OK."

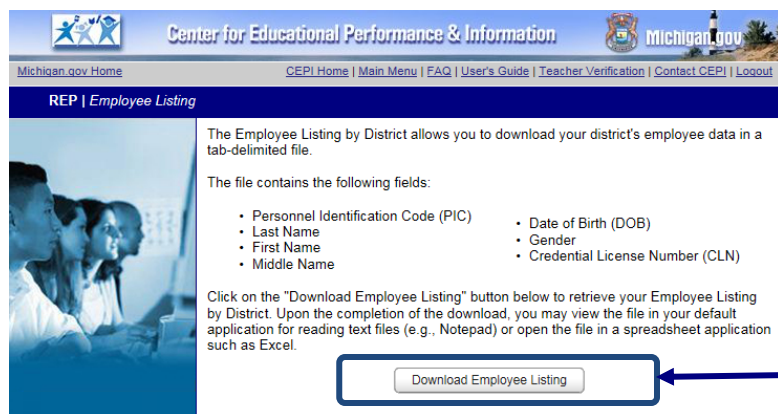

You should get a message box that says "Finished importing document..." Click "OK" and your Access XP database will be set up and contain your district's REP data.

Information on the table structure: The EmploymentData table contains the bulk of the information on the employee, such as the name, birthdate, gender, etc. The ProfessionalDevelopment table contains professional development information. The RacialEthnic table contains the racial/ethnic codes and values (refer to the REP Data Field Descriptions for an explanation of the codes). The SchoolAssignment table contains the personnel assignment data, such as the assignment code, grade settings, FTE, etc. You may set up a relationship among these four tables based on the PIC field, which each table contains. You can find complete personnel information by using this relationship. For example, to find the hours of professional development for John Doe, find the PIC for John Doe in the EmploymentData table, and then find that PIC number in the ProfessionalDevelopment table. The row you find will contain the professional development data for John Doe.

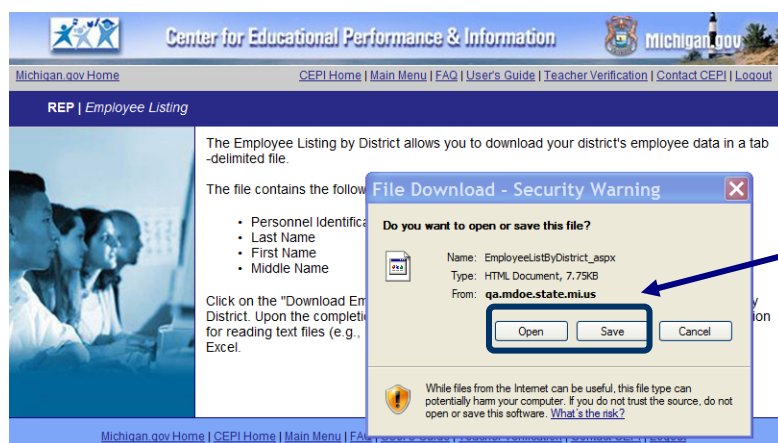

Employee Listing by District

This report lists employees for whom the district user successfully submitted records. This list file is tab-delimited. The format of the report is as follows: Personnel Identification Code (PIC), Last Name, First Name, Middle Name, Date of Birth (DOB), Gender and Credential License Number. This report also provides a list of all PICs for the employees of the district that may be helpful for the Teacher Student Data Link Data Submission in the Michigan Student Data System.

The following information screen will appear when you click on "Employee Listing by District":

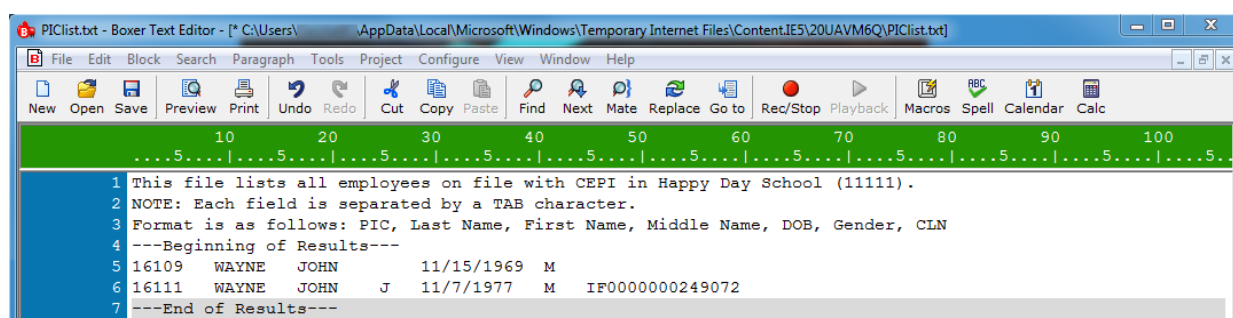

The [File Download](#) window will appear when you click on [Download Employee Listing File](#).

You may *open* the file or, *save* it to your computer. The file may be opened in software such as Excel or Notepad.

Step One: Save the file to your computer and open in an application for reading text files (e.g. Notepad or Boxer). The file will open with the following information:

Step Two: Highlight and copy the data you want to move into an Excel spreadsheet. You will need to add the column headings separately.

```
